

PROGRAM ANNOUNCEMENT

THE DEPARTMENT OF DEFENSE (DoD)

***INSTRUMENTATION PROGRAM FOR
TRIBAL COLLEGES AND UNIVERSITIES (TCUs)
FISCAL YEAR 2008***

Broad Agency Announcement No. W911NF-08-R-0005

**Issued by Army Research Office (ARO) on behalf of the
Office of the Director of Defense Research and Engineering
(Laboratories and Basic Sciences)**

**Issued: May 02, 2008
Proposals Due: June 26, 2008**

I. General Information: The Department of Defense (DoD) announces the fiscal year 2008 Instrumentation Program for Tribal Colleges and Universities (TCUs). The program is executed under policy and guidance of the Office of the Director of Defense Research and Engineering (ODDR&E) and administered through the Army Research Office (ARO). The program aims to enhance science, mathematics, and/or engineering education programs and/or research capabilities through the acquisition of equipment and/or instrumentation that will augment existing facilities, enhance curricula, or develop new laboratories, programs and capabilities in these areas. This includes basic equipment for laboratory and classroom use as well as sophisticated instruments and computers (including software) for advanced studies and research important to the DoD.

Approximately \$2.4 million is expected to be available for new awards. Instrumentation grants will range from \$50,000 to \$250,000 for a 12-month period. Awards will be based on merit competition following evaluations by a panel of Army scientists and engineers (see evaluation criteria in Section V). The Army Research Office will issue the grant awards.

These program enhancements are expected to increase the number of students, including underrepresented minority students, obtaining undergraduate and graduate degrees in these fields. Please note that recruitment and selection procedures for students affected by an award under this solicitation must comply with Section 2000d of Title 42, United States Code, which provides: *No person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.*

A. Program Title – *Fiscal Year 2008 Department of Defense Instrumentation Program for Tribal Colleges and Universities (TCUs)*

B. Program Number - *ARO Broad Agency Announcement W911NF-08-R-0005*

C. Award Type – Awards will be made by project grants.

D. Agency Contacts:

Questions regarding program policy and guidance should be directed to the Office of the Director of Defense Research & Engineering:

Evelyn Kent, 703-588-1378, Evelyn.Kent@osd.mil

Questions regarding program execution and administration should be directed to the Army Research Office:

Peggy Lacewell, 919-549-4339, peggy.lacewell@us.army.mil or

Brendalyn Alexander (Contractor) 919-549-4283,
brendalyn.alexander@us.army.mil

E. **Catalog of Federal Domestic Assistance (CFDA) Number** – 12.630

F. **CFDA Title** – Basic, Applied, and Advanced Research in Science and Engineering

II. Eligibility: This competition is open only to institutions identified in the U.S. Department of Education Postsecondary list for Indian Tribally Controlled Colleges and Universities. The list is available at: <http://www.ed.gov/about/offices/list/ocr/edlite-minorityinst-list-pg5.html>. Questions concerning the list must be directed to the U.S. Department of Education at 202-219-7040.

Proposing schools should have science, mathematics and/or engineering programs and a history of graduating students in one or more of these fields. Community colleges or junior colleges responding to this announcement must demonstrate or establish a program in which the graduates will continue science, mathematics, or engineering studies toward the baccalaureate degree. The institution that grants the baccalaureate degree does not have to be a Tribal college, but it must formally agree to participate and support the community or junior college graduates toward completion of the baccalaureate degree as stipulated in the proposal.

The principal investigator must be a U.S. citizen or permanent resident and a faculty member at the institution submitting the proposal.

III. Program Description: Eligible institutions are encouraged to submit a proposal to acquire instrumentation and/or equipment that would strengthen programs in science, mathematics, and/or engineering and increase the number of graduates in these fields. Proposals must address the impact of the proposed equipment on the institution's ability to attract students to these fields of study and encourage them to pursue undergraduate and graduate degrees, particularly in areas of scientific interest to ARO. These areas may be found at:

<http://www.aro.army.mil>

(Select: "Broad Agency Announcements" from the menu bar, then select: U.S. Army Research Office Broad Agency Announcement, April 2007 – FY 2011, solicitation # W911NF-07-R-0003.)

Please note: Use the ARO BAA only to identify areas of scientific interest to the Army Research Office. Disregard instructions regarding proposal structure and submission and instead, follow the instructions in this special solicitation.

One proposal per institution will be accepted. If more than one proposal is received from a given institution, that institution will be required to withdraw all but one.

Proposals may request funding for more than one instrument or piece of equipment if the requested pieces complement or replace existing instruments, interface with existing instruments or each other, or otherwise expand the education and/or research capabilities of one or more departments.

The proposed equipment may be incorporated into other assistance programs that enhance science, mathematics, and/or engineering education or research. For example, if assistance from other schools, industry, or other institutions exists or is contemplated, it should be discussed. Moreover, if assistance programs supported by other agencies (e.g., National Science Foundation) are in place or planned, explain their relationship to your proposal.

Pay careful attention to Sections IV and V below and be sure to address all of these factors in the proposal. Failure to do so will result in a low score and will probably make the proposal noncompetitive.

IV. Proposal Submission Information: All proposals must be received no later than 4:00 p.m. Eastern Daylight Saving Time on Thursday, June 26, 2008, whether submitted via Grants.gov or in hard copy.

Proposals must be submitted using one of the two following formats:

A. Hard Copy Proposal Submission: All proposals must be complete and self-contained to qualify for review. Paper proposals require a signed original and three (3) photocopies. The original should have the word "ORIGINAL" printed or stamped in the upper right corner.

Each proposal should be typed using 12-point font with 1" margins on 8½ x 11-inch white paper, one-sided, single-spaced, and NO LONGER THAN 25 PAGES. **The required cover page, SF 424 (R&R) - Attachment A, is not included in the 25-page limit.** This form can be found at the following link provided below:

<http://www.arl.army.mil/www/default.cfm?Action=29&Page=218#baaforms>.

All other pages, beginning with the first page after the cover, should be numbered consecutively. Pages exceeding the 25-page limit will not be considered. The original and each copy must be stapled securely in the upper left corner. Plastic covers or binders should not be used. Separate items such as institutional brochures will not be accepted.

All awards require certifications of compliance with national policy requirements. Statutes and government-wide regulations require some certifications to be submitted at the time of proposal submission. These include Appendix A to 32 CFR Part 25 regarding debarment, suspension, and other matters; Appendix C to 32 CFR Part 25 regarding drug-free workplace; and Appendix A to 32 CFR Part 28 regarding lobbying. Full text of these certifications is available at <http://www.aro.army.mil/forms/forms2.html>

Proposers are certifying compliance with these regulations by signing the Proposal Cover Page (Form SF 424 (R&R – Attachment A)). ***It is not necessary to include the certification text with your proposal.***

The proposal must include the following components arranged in the order listed:

1. Proposal Cover: Use the two-page form, SF 424 (R&R) – Attachment A. Be sure to complete each item and sign the form where indicated.

2. Proposal Abstract: Provide a summary (no more than one page, 200 words or less) of the proposed project.

3. Technical Description and Supporting Information: The technical portion of the proposal shall:

a. Describe how the proposed instrument/equipment will enhance the quality of academic programs in science, mathematics and/or engineering.

b. Indicate the educational departments and other groups within or outside the institution that will use the instrument/equipment, as well as any other programs that will benefit from its use.

c. Describe how the proposed instrument/equipment will interface with existing facilities or upgrade other equipment currently available.

d. Describe any special circumstances regarding the acquisition or installation of the new instrument/equipment. For example, will installation require facility renovation such as plumbing or electrical upgrades? If so, this should be budgeted.

e. Indicate the estimated useful life of the instrument/equipment and describe the plan to service and maintain it, including source(s) of funds. The cost for continued operation and maintenance must be met by normal support mechanisms and are not to be part of the budget.

f. Indicate if faculty members will require training for optimum use of proposed instrument/equipment. If so, this should be budgeted. Funds for extramural technical assistance may also be requested.

g. The proposal should also describe how students and faculty would utilize the new instrument/equipment, for example:

h. Beyond regular coursework, will students use the instrumentation/equipment for research projects? Will faculty use it for research or other applications beyond the classroom?

i. Will there be workshops to acquaint local high school teachers with the new instruments/equipment?

j. Will there be outreach initiatives within the local school community that may encourage younger students to become better acquainted with the college and possibly attracted to studies in science or mathematics?

k. Any existing or planned mentoring programs or other after-hours educational activities should be discussed.

4. Curriculum Vitae: Provide curriculum vitae for the Principal Investigator and for other key personnel. Please be sure to include education and years.

5. Budget: Provide a budget that identifies:

a. Equipment to be purchased, cost per item and total cost. Indicate the proposed source of each item. Include name and phone number of a contact at the source(s) or a web site address listing the equipment and price.

b. Installation cost of the instrument/equipment. This may include facility upgrades that are necessary for the new item(s) to function properly and safely.

c. Technical support and training. For example, a representative of the vendor may spend time on campus training faculty to use and maintain the equipment, or the principal investigator could travel to the vendor's site for training. In either instance, a period not exceeding two weeks should be adequate.

d. Block #16 (Estimated Project Funding) on form SF424 (R&R) must agree with the budget submitted in the proposal.

6. Submission Date and Time *Proposals must be received no later than 4:00 p.m. Eastern Daylight Saving Time, Thursday, June 26, 2008.*

The offeror is responsible for submitting the proposal to reach the Army Research Office no later than the stated date and time. Any proposal arriving after the deadline is "late" and will not be considered for an award, except for the following:

a. There is acceptable evidence that the properly addressed proposal was delivered to the Army Research Office by the deadline; or

b. The properly addressed proposal was sent by US Postal Service Express Mail prior to June 24, 2008.

In case the operation of the Army Research Office is interrupted and the office is unable to receive the proposal, the deadline is extended to the same time of the first day when the office is in operation.

Please note that proposals delivered by commercial carriers are considered "hand carried" and no exceptions can be made to allow such proposals to be considered if, for any reason, they are received after the deadline. Offerors are advised that some proposals responding to past announcements that were sent via commercial carriers were delayed in shipment and arrived after the deadline. To decrease the probability of late arrival and proposal rejection, principal investigators are encouraged to schedule delivery before the deadline date.

All paper proposals must be sent to the Army Research Office. Point of contact at delivery site is Peggy Lacewell, 919-549-4339. Please note the following special instructions:

Use the PO Box address below for delivery by US Postal Service:

Army Research Office - POC: Peggy Lacewell
ATTN: AMSRD-ARL-RO-MT (TCU 2008)
P.O. Box 12211 - Research Triangle Park, NC 27709-2211

Use the street address below for delivery by commercial carrier (e.g., Federal Express, DHL, etc.):

Army Research Office - POC: Peggy Lacewell
ATTN: AMSRD-ARL-RO-MT (TCU 2008)
4300 South Miami Blvd. - Durham, NC 27703-9142

B. Grants.gov Submission (see Section VI.E., below for additional Grants.gov electronic submission information):

1. Apply through the Grants.Gov APPLY portal, <http://www.Grants.gov/Apply>. A Grant Application Package is available for download through the Grants.Gov Apply portal under CFDA Number 12.630/Funding Opportunity Number W911NF-08-R-0005. The following documents are mandatory: (1) Application for Federal Assistance (Research and Related) (SF 424 (R&R)), and (2) the Attachments Form.

a. The SF 424 (R&R) must be fully completed. Block #16 (Estimated Project Funding) must agree with the budget submitted in the proposal.

b. The Attachments Form must contain the information requested in "Technical Description and Supporting Information" shown in IV.A.3 -5 above, and the electronic forms. The required forms are: (i) Research & Related Other Project Information, (ii) Research & Related Senior/Key Person Profile - maximum 8 Co-PIs, (iii) Research & Related Senior/Key Person Profile (Expanded) - 9-40 Co-Pis (if applicable), (iv) Research & Related Budget Sections A - K, (v) Research & Related Budget - Cumulative Budget, and (vi) Disclosure of Lobbying Activities Form and can be accessed at <http://www.aro.army.mil/forms/forms2.html>. The PDF Form may be saved to a working directory on a computer and opened and filled in using Adobe Reader 8.1.2 or later software application. All documents must be combined into a single PDF formatted file titled "W911NF-08-R-0005 Proposal" and uploaded sequentially into the mandatory Attachments form.

NOTE: Prospective grantees must complete several steps in order to participate in the Grants.gov application process. Starting early is extremely important as it may take several weeks to complete the processes necessary to submit an application through the Grants.gov Apply portal.

2. Proposals transmitted online via the Grants.gov APPLY portal must be date/time stamped by the server as submitted by 4:00 p.m. Eastern Daylight Savings Time on Thursday, June 26, 2008.

3. All awards require certifications of compliance with national policy requirements. Statutes and government-wide regulations require some certifications to be submitted at the time of proposal submission. These include Appendix A to 32 CFR Part 25 regarding debarment, suspension, and other matters; Appendix C to 32 CFR Part 25 regarding drug-free workplace; and Appendix A to 32 CFR Part 28 regarding lobbying. Full text of these certifications is available at <http://www.aro.army.mil/forms/forms2.html>. Proposers are certifying compliance with these regulations by signing the Proposal Cover Page SF 424 (R&R).

4. Should the site of Grants.gov not be operational on the day due, the deadline is extended to the same time of the first day when the site is in operation.

V. Proposal Evaluation and Selection:

A. Evaluation Criteria: Proposals will be evaluated on the following criteria of equal importance:

1. Impact of requested instrumentation/equipment on science, mathematics and/or engineering programs of the institution;

2. Impact on students and the number of students who will use the instrumentation/equipment or will benefit from its use in the science, mathematics and/or engineering curricula;

3. Degree to which the requested instrumentation/equipment will interface with or upgrade other programs and instruments and the impact relative to current capabilities;

4. Qualifications of the faculty to carry out the program, including the use and maintenance awareness of the instrumentation/equipment proposed for purchase;

5. Realism and reasonableness of cost.

B. Evaluation Process: Army scientists and engineers will evaluate proposals according to the above criteria. The most meritorious proposals will be recommended for award. Approval of the recommended selections is the authority of the Deputy Director of Defense Research and Engineering (Laboratories and Basic Sciences).

C. Selection Announcement and Award Dates: An announcement of the selections will be made by the DoD Public Affairs Office via a News Release that is expected to be available on or around September 12, 2008 at <http://www.defenselink.mil/releases> in (search for title containing "DoD Awards to Tribal Colleges and Universities"). Grant awards are expected to be in place on or around November 14, 2008. This date should be cited as the start date for the proposal performance period (see Proposal Cover – SF 424 R&R) and the budget.

VI. Administrative Information:

A. Award Notices: When the DoD News Release is posted, ARO will send written notification to all principal investigators. Those selected for an award are authorized to incur pre-agreement costs 90 days prior to award. Please note that all pre-agreement costs are incurred at the recipient's risk (i.e., the Government is under no obligation to reimburse such costs if, for any reason, the recipient does not receive an award or if the amount of the agreement is less than anticipated and inadequate to cover such costs).

Approximately four weeks after notification of award, the Army procurement office will contact the college/university business office to initiate award processes. Initial contact will be made with the individual whose name and number is provided in section 4 of the Proposal Cover (SF 424 R&R).

Principal investigators selected for an award will be authorized to incur pre-agreement costs 90 days prior to award. Please note, however, that all pre-agreement costs are incurred at the recipient's risk (i.e., the Government is under no obligation to reimburse such costs if, for any reason, the recipient does not receive an award or if the amount of the agreement is less than anticipated and inadequate to cover such costs).

In compliance with provisions of 31 U.S.C. 6306 and with the intent of this program to increase university capabilities in science, mathematics and engineering education and research, title to instrumentation/equipment acquired under this solicitation will be vested with the university without further obligation to the government.

B. Payment by Electronic Fund Transfer – Central Contractor Registration Database (CCR): All payments by the Government under an award resulting from this solicitation shall be made by electronic funds transfer (EFT). **PLEASE NOTE:** Before an award can be made, the awardee (i.e., the college or university) must be registered in the DoD CCR database. Proposers should verify with their business office that this has been done. To register in the DoD CCR database, go to <http://www.ccr.gov/> or call (800) 227-2423 for assistance.

C. Reporting: An equipment grant requires a report 90 days after the end of the performance period defined in the award agreement. The report should indicate fulfillment of the proposed objectives through the acquisition and use of requested equipment. Detailed instructions for report preparation will be provided at time of award.

D. Other: In compliance with the provisions of 31 U.S.C. 6306 and with the intent of this program to increase university capabilities in science, mathematics, and engineering education and/or research capabilities, title to equipment will be vested with the university without further obligation to the government.

E. Grants.gov Submission:

1. Registration. Each organization that desires to submit applications via Grants.gov must complete a one-time registration. See <http://www.Grants.gov/GetStarted>. The following steps are required:

2. Request a DUNS Number – Follow the instructions at: <http://www.Grants.gov/RequestaDUNS> to obtain a DUNS number. It is highly recommended that you request the number by telephone at 1-866-705-5711. This will take about 10 minutes to complete and there is no charge. **NOTE:** Once the telephone registration is completed, you must wait 24 hours before attempting to use that DUNS for registration in the Central Contractor Registry (CCR).

3. Register in the Central Contractor Registry (CCR) – Go to <http://www.Grants.gov/CCRRegister> and click on the “Help” button to locate the tutorial. It is recommended that you print the tutorial for reference and follow the instructions in the link above. It is also recommended that you print and complete the 7-page CCR Worksheet at http://www.ccr.gov/doc/CCR_Screens_new_only.pdf prior to registration, as it may take several days to gather the information needed for the worksheet. You are required to designate an Electronic Business Point of Contact (E-Business POC) and a Marketing Partner Identification Number (MPIN) in CCR. It is important to provide the MPIN to the E-Business POC. For assistance with the CCR, contact the Assistance Center at 1-888-227-2423 or at CCR@dliis.dla.mil. You may also access the CCR Handbook at <http://www.ccr.gov/handbook.asp>. **VERY IMPORTANT: Knowing the MPIN and who is designated as your organization’s E-Business POC in the CCR is a significant step in the process. This person will function as the organizational agent to approve personnel who can submit binding proposals on behalf of your organization.**

4. Install the PureEdge Viewer – Authorized Organizational Representatives (AORs) approved by the E-Business POC are the individuals that will be given the authority to submit proposals on behalf of your organization. All AORs must download and install the PureEdge Viewer on their computer workstation by following the instructions at <http://www.Grants.gov/DownloadViewer>. This small, free program will allow AORs to access, complete, and submit applications electronically and securely. If you encounter any problems, contact customer support at 1-800-518-4726 or support@Grants.gov.

5. Register with the Credential Provider – AORs must register with the Credential Provider. AORs must wait a minimum of 3 business days for the CCR to activate the organization’s account before attempting to register with the Credential Provider at <https://apply.Grants.gov/OrcRegister> and click on the “Help” button to locate the tutorial. Print the tutorial for reference and follow the instructions in the link above. Record the user ID and the password that you enter because you will need this information to register with Grants.gov as an AOR. AORs must wait approximately 20 minutes after completing the Credential Provider registration before proceeding to the next step of registering with Grants.gov. If you encounter any problems, the Credential Provider may be reached at 1-800-386-6820 or via email at pkihelp@orc.com.

6. Register with Grants.gov – AORs must register with Grants.gov, utilizing their User ID and Password obtained from registering with the Credential Provider. Go to <https://apply.Grants.gov/GrantsgovRegister> and click on the “Help” button to locate the tutorial for reference and follow the instructions in the link above. After you have completed the Grants.gov registration process, you will receive a confirmation that indicates whether your registration was successful. After an AOR successfully registers with Grants.gov, an email will be generated to your organizations E-Business POC to notify

them that an individual has registered in Grants.gov to be an AOR capable of submitting applications in Grants.gov on behalf of your organization. AORs will not be able to submit electronic applications until they receive authorization from the E-Business POC. Normally, the E-Business POC should process these requests within one (1) business day. If you encounter any problems, please contact customer support at 1-800-518-4726 or support@Grants.gov.

7. Once the E-Business POC has authorized privileges to the AOR, the AOR will receive an email notification that they have been given authorization. The AOR may then proceed to submit applications to Grants.gov. For application instructions, go to <http://www.Grants.gov/Apply>. The training demonstration at <http://www.Grants.gov/CompleteApplication> will assist AORs in the application process. Remember that you must open and complete the Application for Federal Assistance (Research and Related) (SF 424 (R&R)) first, as this form will automatically populate data fields in other forms. If you encounter any problems, contact customer support at 1-800-518-4726 or at support@Grants.gov. If you forget your user name or password, follow the instructions provided in the Credential Provider tutorial.

8. Designation of Privileges to the AOR – The E-Business POC is the sole authority of the organization with the capability of designating or revoking an individual’s ability to submit grant applications on behalf of their organization through Grants.gov. Once the E-Business POC receives the email notification from the individual wishing to be recognized as an AOR, the E-Business POC should go to: <https://apply.Grants.gov/agency/AorMgrGetID> and click on the “Help” button to locate the tutorial, then log into the system using the DUNS number and Marketing Partner Identification Number (MPIN) designated for their organization when CCR registration was performed. Once in the system the E-Business POC should follow the instructions for designating privileges to the AOR. If the E-Business POC cannot locate the CCR MPIN, contact the CCR Assistance Center at 1-888-227-2423 or at CCR@dlis.dla.mil.

NOTE: Tutorials may be printed by right-clicking on the tutorial and selecting “Print”.
