between origin and destination, a U.S. flag air carrier must be used on every portion of the route where it provides service unless, when compared to using a foreign air carrier, such use would:

(a) Increase the number of aircraft changes you must make outside of the U.S. by two or more; or

(b) Extend your travel time by at least six hours or more; or

(c) Require a connecting time of four hours or more at an overseas interchange point.

42. **Year 2000 Computer Compliance.** Recipients of ARO research grants are reminded of their responsibility to take appropriate actions to ensure that the ARO project being supported is not adversely affected by the Year 2000 problem. Potentially affected items include computer systems, databases, and equipment. If an award deals with future dates, that award must be Year 2000 compliant before the first use of dates beyond 31 December 1999. The ARO should be notified if a recipient concludes that the Year 2000 will have a significant impact on its ability to carry out an ARO funded project.

43. **After-the-Award Requirements.** Closeout, subsequent adjustments, continuing responsibilities, and collection of amounts due are subject to requirements found in DODGARs §32.71-.73.

44. **Acceptance of Grant.** The recipient is not required to countersign the grant document; however, the recipient agrees to the conditions specified in the Research Grant
and the Articles contained herein unless notice of disagreement is furnished to the Grants Officer within fifteen (15) calendar days after the date of the Grants Officer's signature.
