

Innovation Hub Concept Plan

Michael Hitchings
(410) 278-1654
Michael.R.Hitchings.civ@mail.mil

Initial Operating Concept Objectives:

- Multiple operational spaces established in existing facilities providing collocation of work spaces.
- Enhance electronic security measures installed in FY17 & FY18 to monitor Open Campus environments.
- Provide access and support for guest researchers and enhance collaborative opportunities in existing government facilities.

Final Operating Concept Objectives:

- Construct new collaborative campus in first POM Cycle:
 - Computational and Information Sciences Facility
 - Human Sciences Engineering Laboratory
- Construct additional MILCON projects in future POM Cycles:
 - Sciences for Maneuver Laboratory
 - Materials Sciences Laboratory
 - Additive Manufacturing Laboratory
 - Campus Infrastructure Upgrades
- Supporting infrastructure and upgrades include electricity, communication lines, water, sewer, roads, etc.
- Partner tenants at APG seek to build collaborative opportunities alongside ARL facilities.
- Establish cyber excellence silicon valley of the Army
