

PROTECTION OF PROPRIETARY INFORMATION DURING EVALUATION AND AFTER AWARD

It is the policy of the US Army Research Office to treat all research proposals as privileged information prior to award and to disclose the proposal contents only for evaluation purposes. Technical evaluation of these proposals normally are made by highly qualified scientists from the Government and leading scientists and other preeminent experts outside the Government to ascertain their merits. If you wish, you may restrict the evaluation of your proposal to only scientists within the Government. To do so may prevent it from receiving an evaluation by those most qualified to evaluate it. Therefore, we ask permission to send your proposal outside the Government, if necessary, to obtain an unrestricted evaluation.

All reviewers are made aware that proposals sent to them for evaluation shall not be duplicated, used, or disclosed in whole or in part for any other purpose without the written permission of the offeror.

You should be aware that despite all precautions, we can protect the confidentiality of proprietary information contained in proposals only to the extent that it is exempt from disclosure under the Freedom of Information Act (FOIA; 5 U.S.C. 552). Generally, Exemption 4 of the FOIA [5 U.S.C. 552(b)(4)] will protect from release information submitted to the Government that constitutes either (1) a trade secret or (2) commercial or financial information which is privileged or confidential. Any such proprietary information contained in your proposal should be marked in accordance with FAR 15.608.

Please complete the following statement indicating your proposal treatment preference during the evaluation phase and, should a contract be awarded, afterwards.
